Md. Nafis Sadique Niloy, CSPO®

Project Management | Certified Scrum Product Owner® | CS Graduate | Agile & Software Delivery | Turning Complexity into Clarity

Bangladesh

Summary

CS graduate from BRAC University currently working in project coordination within a software-focused environment. I support project execution through requirement gathering, documentation, task tracking, and cross-team communication between development, QA, and design teams.

Previously, I served as President of the BRAC University Computer Club, leading a 500+ member community and driving initiatives focused on mentorship, structured project work, and industry collaboration. I have hands-on experience coordinating teams, managing stakeholders, and translating technical requirements into actionable plans.

With a foundation in computer science and exposure to Agile workflows, I am actively growing toward structured Project Management and Delivery roles where communication, ownership, and execution quality matter.
